# ADVANCED HELMET MOUNTING HARNESS

## HMH-1

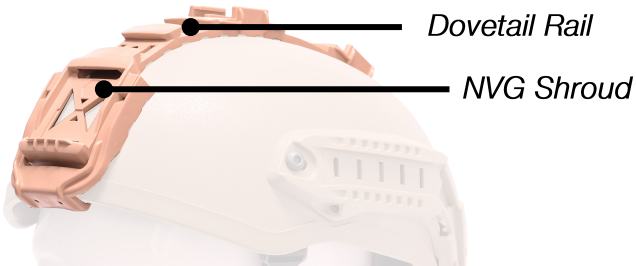

HMH-1 is the new helmet mounting harness designed for attaching and carrying multiple equipment on a standard ACH, MICH and similar brimless helmets. It features several different mounting points for an operator to carry night vision goggles, flashlights, microphones, cameras, battery packs, markers, map readers and other gear.

Installation is done within a couple of minutes and does not require to drill holes, or glue certain parts of the mount to the helmet. It is a universal size harness designed for quick attachment without making any alterations to the helmet.

Very robust and lightweight structure adds minimum weight yet provides versatile mounting platform for added tactical advantage on the field.
